PRODUCTS & SOLUTIONS

SAP Concur

A leading solution for managing travel, expense, and invoice management, helping organizations improve compliance, reduce costs, and enhance employee satisfaction.

SAP Business One

An affordable ERP solution for small to midsize companies, SAP Business One streamlines processes, provides real-time information, and supports business growth.

SAP Manufacturing Integration & Intelligence (MII)

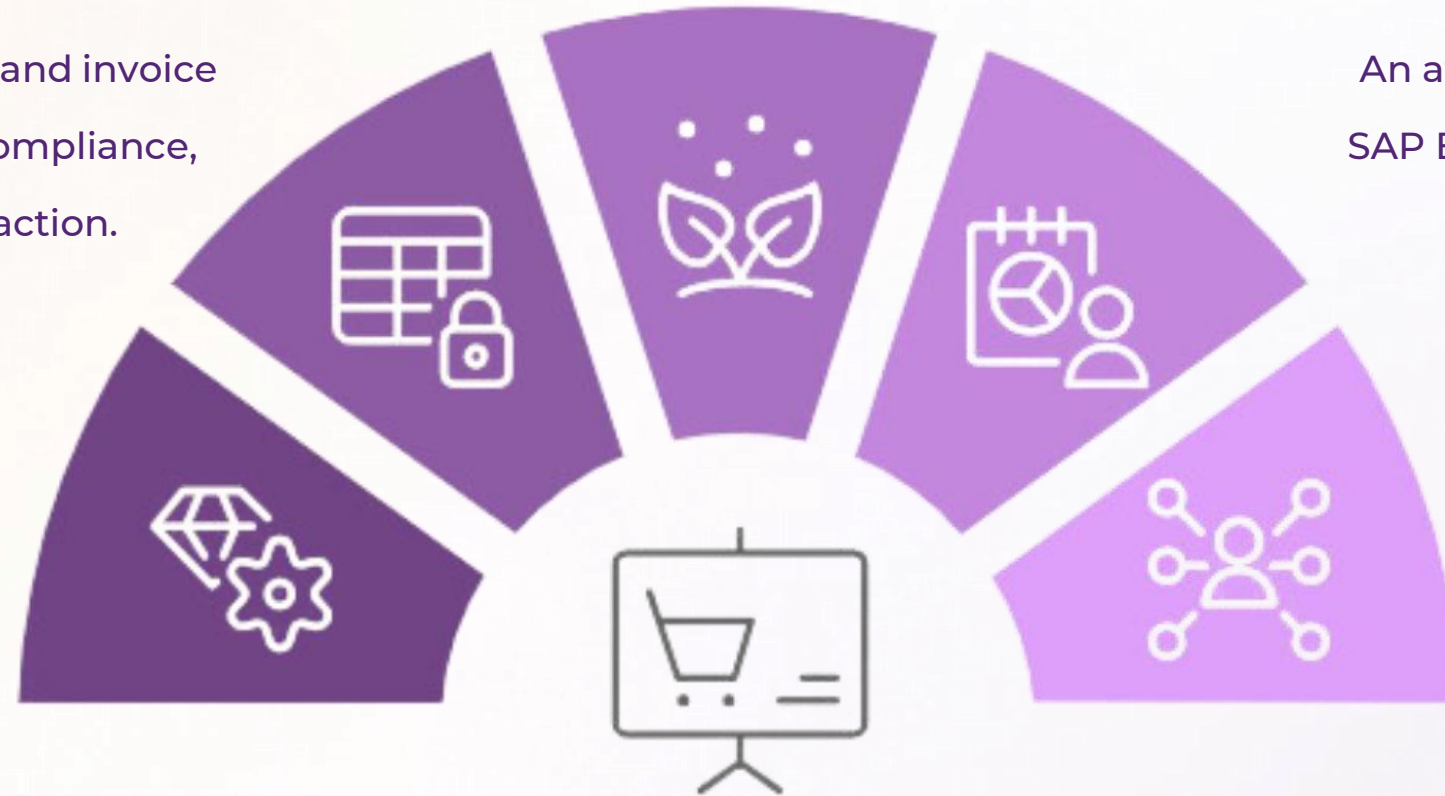

A powerful manufacturing solution that provides real-time visibility into operations, enabling manufacturers to improve efficiency and agility.

SAP Enterprise Asset Management (EAM)

A suite designed to support asset lifecycle management, optimizing equipment usage, reducing downtime, and enhancing maintenance processes.

SAP S/4HANA Cloud

A comprehensive and flexible cloud ERP system that allows businesses to innovate, scale, and drive digital transformation with embedded AI and analytics.

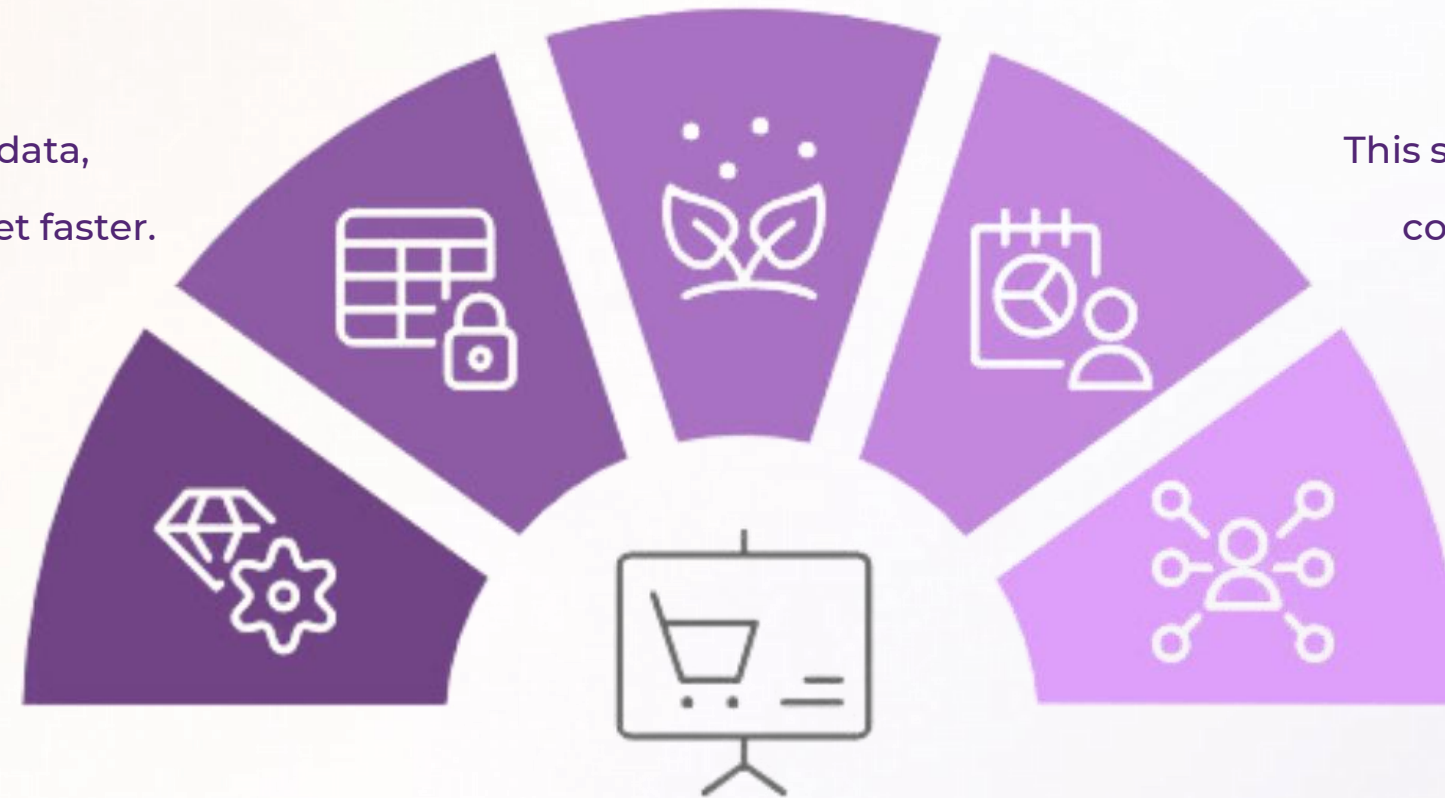

PRODUCTS & SOLUTIONS

SAP Product Lifecycle Management (PLM)

A solution that helps businesses manage product data, streamline development, and bring products to market faster.

SAP Governance, Risk, and Compliance (GRC)

A suite designed to automate risk management, ensure compliance, and protect organizational assets with a comprehensive governance approach.

SAP Environment, Health, and Safety (EHS)

This solution supports organizations in managing regulatory compliance, safety protocols, and environmental risks.

SAP Digital Supply Chain Solutions

Includes SAP Integrated Business Planning, SAP Transportation Management, and SAP Extended Warehouse Management, providing end-to-end supply chain visibility and control.

SAP Success Factors Modules

A suite of cloud-based human capital management solutions designed to help organizations manage their workforce effectively. To enable organizations to optimize HR processes, foster talent development, and improve overall workforce engagement.

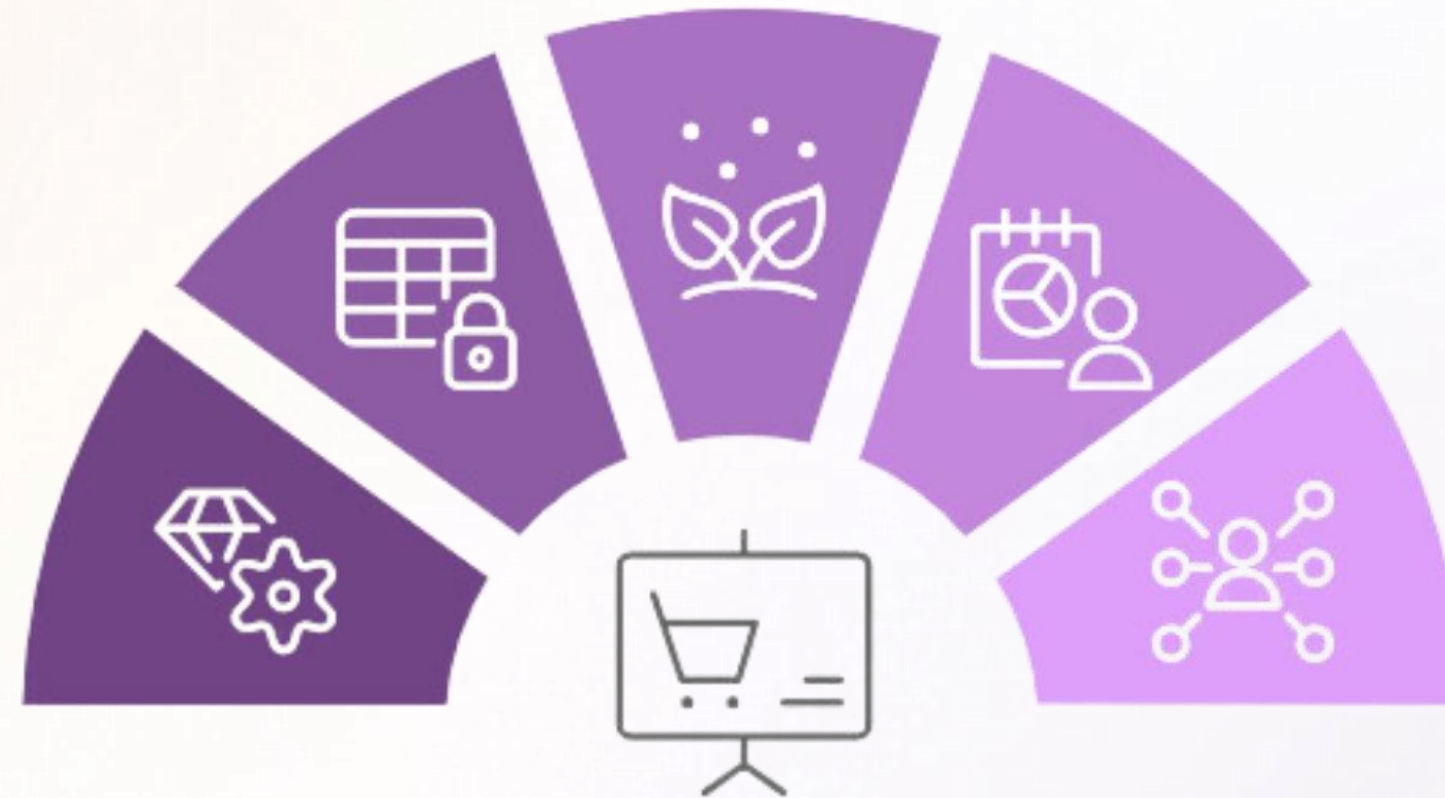

PRODUCTS & SOLUTIONS

SAP Project Systems (PS)

A powerful project management solution.

SAP Audit Management

A comprehensive solution for managing internal audits.

SAP Analytics Cloud

A powerful analytics solution.

SAP Business Technology Platform (BTP)

A cloud platform for building and extending SAP applications.

SAP Customer Experience (CX)

A set of solutions for managing customer interactions.

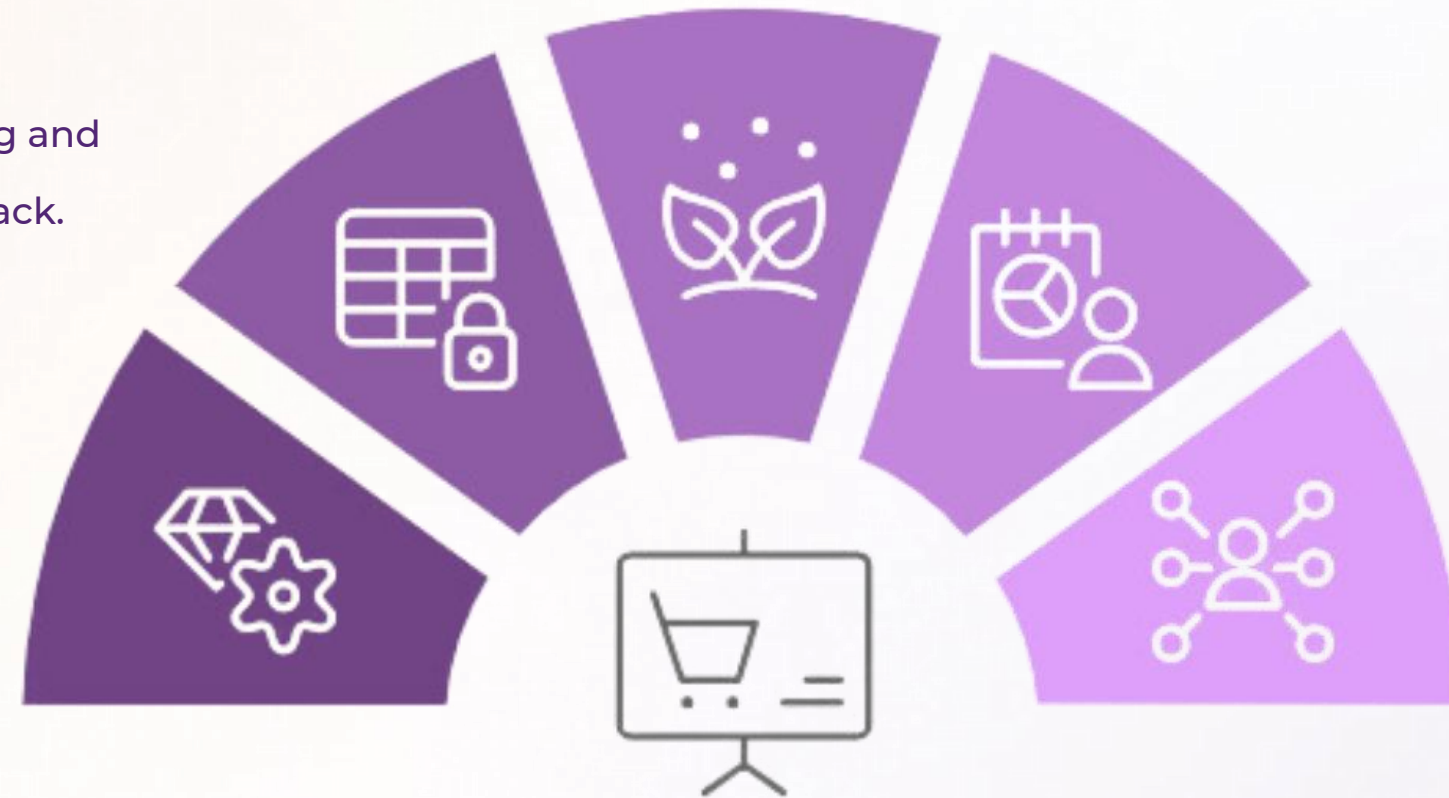

PRODUCTS & SOLUTIONS

Qualtrics

An experience management platform for gathering and analyzing customer, employee, and brand feedback.

SAP Cloud Platform Integration (CPI)

A cloud-based integration platform for connecting SAP and non-SAP applications.

SAP AI (Artificial Intelligence) Joule

An AI platform for building and deploying intelligent applications.

SAP Cloud ALM (CALM)

A cloud-based application lifecycle management tool for managing the implementation and operation of SAP solutions.

SAP Signavio

A business process transformation suite for process mining, modeling, and optimization.

SAP ENABLE NOW

A digital adoption solution for creating and delivering engaging training content and performance support materials.

SERVICES

1.

IMPLEMENTATION SERVICES

Guidance through the entire SAP implementation lifecycle, from planning and design to go-live and post-launch support, ensuring smooth, tailored implementations.

2.

APPLICATION MANAGEMENT SERVICES

Continuous support to ensure the reliable operation of SAP applications, including maintenance, troubleshooting, and enhancements.

3.

INTEGRATION SERVICES

Solutions to connect SAP systems with other enterprise applications, enabling seamless data flow and improving operational efficiency.

4.

BUSINESS PROCESS OPTIMIZATION SERVICES

Assessment and improvement of existing processes to align with SAP best practices, enhancing efficiency and performance.

SERVICES

5.

DATA MIGRATION & MANAGEMENT SERVICES

Secure, accurate migration of data from legacy systems to SAP, ensuring continuity and minimizing data quality issues.

6.

USER EXPERIENCE & SAP FIORI SERVICES

Implementation of SAP Fiori to improve user adoption and satisfaction by modernizing and customizing the SAP interface for ease of use across devices.

7.

BUSINESS INTELLIGENCE & REPORTING SERVICES

Empowering decision-makers with advanced reporting and real-time insights from SAP data, tailored to meet organizational needs.

8.

SAP SUPPORT & MAINTENANCE SERVICES

Comprehensive support including 24/7 monitoring and proactive maintenance to keep SAP systems robust, secure, and fully operational.

SERVICES

9.

SAP TESTING & QUALITY ASSURANCE SERVICES

End-to-end testing for SAP implementations and customizations to ensure error-free, secure, and high-performing systems.

10.

CUSTOM SAP MODULE DEVELOPMENT

Development of custom SAP modules to address unique business needs, enhancing functionality and aligning SAP capabilities with organizational goals.

11.

CHANGE MANAGEMENT & USER ADOPTION SERVICES

Change management programs designed to support employees throughout the SAP transition, ensuring high adoption rates and minimal disruption.

12.

DISASTER RECOVERY & BUSINESS CONTINUITY PLANNING

Contingency planning to maintain SAP system availability and security, ensuring continuity in the event of unexpected disruptions.

SAP TRAINING PROGRAMS

On-Demand SAP Learning Portals

Online, self-paced learning resources to enable employees to acquire SAP skills at their own pace, supporting continuous learning and development.

Customized SAP Learning Tracks

Customized learning tracks based on employee roles, organizational needs, and SAP modules to ensure relevant and impactful training.

SAP Super User Training Programs

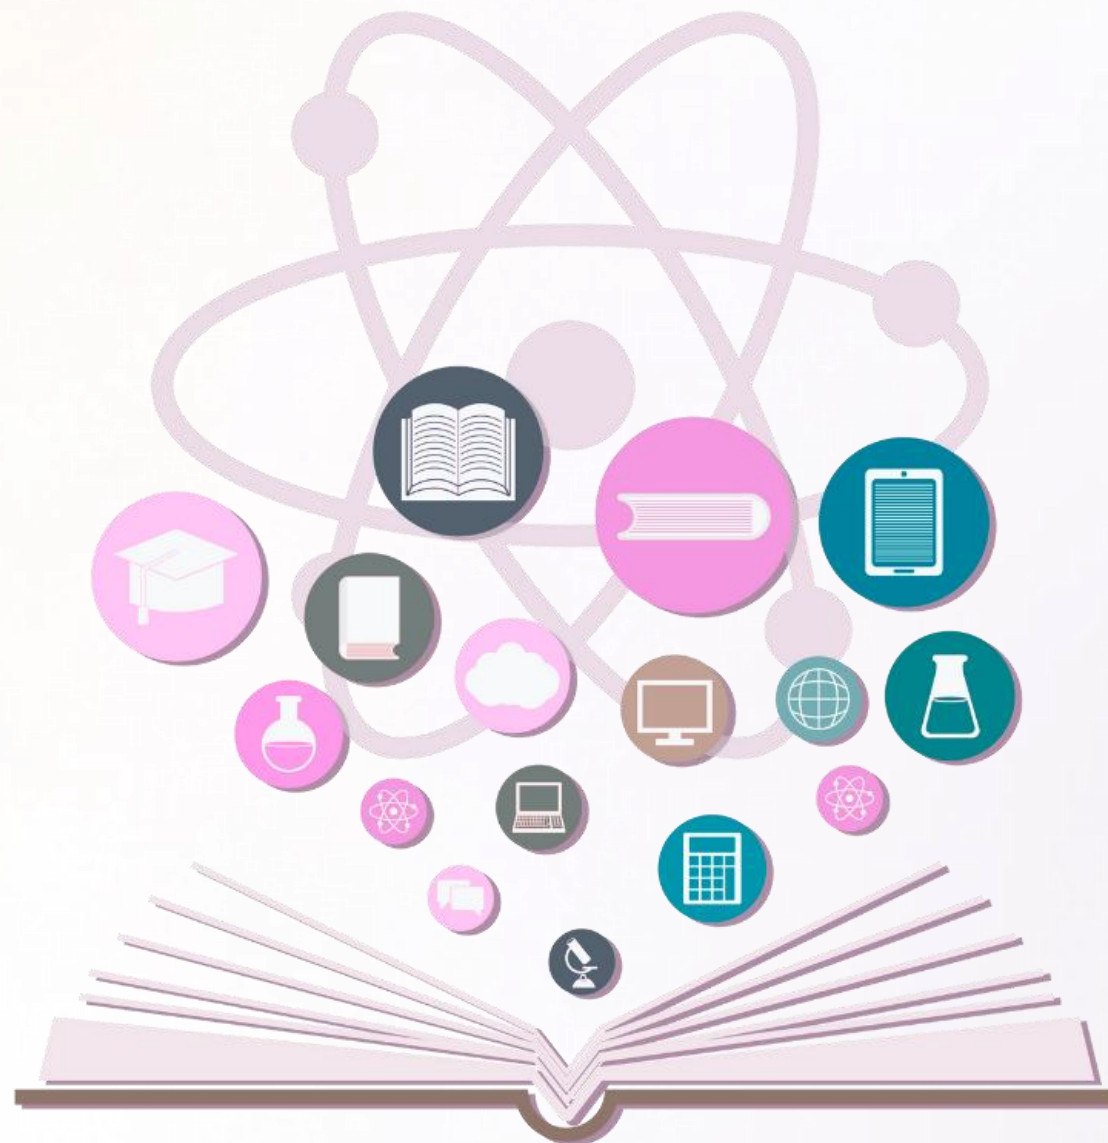

Advanced training programs for select team members to become SAP super users, supporting internal users and enhancing overall adoption.

SAP Workshops and Hands-On Labs

Workshops that provide practical, hands-on experience with SAP applications, tailored to real-world scenarios and user needs.

Executive & Leadership Training on SAP

Programs designed for executives to understand SAP's strategic value, emphasizing high-level capabilities that drive organizational impact.

VALUE-ADDED CONSULTING

Business Process Reengineering

Analyzing and optimizing business processes to align with SAP best practices, enabling organizations to fully benefit from SAP implementation.

Custom Development & Extensions

Creating tailored SAP extensions and applications to meet unique business requirements, ensuring a seamless fit with SAP and business operations.

Digital Transformation Advisory

Partnership with clients to identify key areas for technology adoption, optimization, and automation, ensuring value-driven digital transformation.

Change Management

Supporting clients through SAP implementations and organizational change, focusing on user adoption, training, and minimizing disruption.
